the sacred tree

According to the legend, queen Nefertiti owed her divine beauty to a powerful ointment used by some african ethnic women to make their hair beautiful and keep their skin youthful.

Centuries later, darkest Africa explorers discovered this rare balm and named it « Karité». It was only recently that cosmetic research demonstrated the exceptional moisturizing, nourishing, protective and rejuvenating properties of this shea butter.

Today, Institut Karité Paris® offers a complete range of shea butter-based cares addressing to all skin types, sensitive, dry or damaged skin.

From time immemorial, the shea tree has been a Sacred tree, generously providing seeds to make wonderful skin care products.
From a Sacred tree to a Beauty tree...
